

SAN DIEGO HORTICULTURAL SOCIETY - 2015 FREE WORKSHOP SURVEY

Please take a minute to complete this form and return it tonight, or at the January meeting. You may also scan and email it to workshops@sdhort.org, or mail it to Bruce Cobbledick, 7704 Hillandale Drive, San Diego, CA 92120.

We have many ideas and now need your input, comments or suggestions. Several topics are repeats, but were extremely popular so we think are worth having again. Please help us decide!

The committee will organize the workshops, we just need members to hold them in their gardens or garden-related businesses. Don't be shy! Wouldn't you love information to start a project in your garden, or to share your expertise with others? If you have a special talent, this is your opportunity to share your skills (and perhaps get some new clients).

Enter the raffle to
WIN A PLANT when
you turn this in at
the December or
January meeting!

Most workshops last 2-3 hours. The instructors and homeowners determine the date, time, location and format.
