Groovin' on Plants

Our garden incorporates some of the philosophies that John Lennon so eloquently expressed in the song **Imagine**

imagine all the people, living for today...

The garden's focus is to convey John's message through the principles of good garden design showing how sustainable practices can be integrated into a residential setting. Our first objective is creating an outdoor living space to enjoy today and every day in San Diego's wonderful Mediterranean climate.

imagine all the people, living life in peace

Achieving a peaceful setting for contemplation and meditation – **both crucial aspects of John's life** – is a must for all of us who lead busy lives in our modern society. The various grasses in the garden convey a sense of peace as they sway in the breeze and are accented by pops of flower color supporting the garden show's theme of "Flower Power."

imagine all the people, sharing all the world

Critical to not only the future generations, but to all the other creatures with whom we share this small, blue planet is a world with unpolluted water, clean air and plentiful food. With sharing comes responsibility, we are all stewards of Mother Earth. By incorporating simple sustainable practices into the design, we raise awareness that we all share the planet.

The mosaic *Imagine* is an homage to the 11' diameter mosaic in Strawberry Fields, a 2.5 acre park within Central Park that is dedicated to John. Although the mosaic is black and white, from time to time people create a peace sign with flowers atop the mosaic. The mosaic is the focal point of our garden and we encourage you to imagine all of the possibilities for your own garden.
